VIKTORIIA SHEVERIA
FRONT-END DEVELOPER

CORE SKILLS

- CAD Drafting (utilize AutoCad, Visio, Compass)
- Technical proficiency: stay updated on the latest CAD software tools
- Food Chemistry
- Engineering science
- Technology solutions
- Quality control
- Research and analysis
- Disciplined with high attention to detail
- Web: HTML, CSS, SCSS, JavaScript, TypeScript, Webpack, Git

LANGUAGE

- English ESOL Entry Level 3
- Ukrainian − fluent
- Russian − fluent
- Slovak - elementary

PERSONAL QUALITIES:

- punctual
- organized
- hardworking

INTERESTS

- playing the piano
- snowboarding
- playing checkers
- hiking in the mountains

PERSONAL PROFILE

Driven by a background in chemical engineering, I've transitioned into a focused and ambitious developer, seamlessly blending analytical acumen with a passion for programming. Proficient in HTML, CSS, SCSS, JavaScript, and TypeScript, I leverage a strong educational foundation to fuel innovation in collaborative environments. Eager to demonstrate my work ethic, logical problem-solving skills, and effective communication abilities, I bring experience from both chemical engineering and private enterprise to dynamically contribute to projects.

PROJECTS

Recently, I've immersed myself in programming, focusing on Front-end development and JavaScript mastery. During this period, I've completed several projects, a curated selection of which is showcased in my GitHub portfolio:
https://github.com/ProstoVika

For deeper insights into my background and experiences, I encourage you to visit my personal website at **https://prostovika.github.io/website/**

There, you'll find comprehensive details about my journey in the programming realm.

CAREER SUMMARY

2007 - 2013

Employer: Kyiv National University of Food Technologies
Role: Laboratory technician, Kyiv

I worked as a laboratory assistant at the university in the chemical laboratory of scientific experiments in the food industry.
Main duties:

- Perform laboratory tests in order to produce reliable and precise data;
- Ensure the laboratory is well-stocked and resourced;
- Following strict methodologies to carry out analyses;
- Prepare specimens and samples

2014 - 2015

Employer: Private enterprise
Role: Accounting, Khust

I worked for a private enterprise as an economist and part-time logistician. In this job I had experience in teamwork, developing good working relationships with employees and making use of my clear communicative skills and ability to quickly my clear communicative find solutions or alternatives.
Main duties:

- Prepare financial statements and reports;
- Maintain accurate records of financial transactions.

2018 - 2019

Employer: Corporation "Ukrainian Mineral Waters"
Role: Chemical engineer, Svaliava

I worked as a chemical engineer scientific freedom, having sole responsibility for deciding which raw materials could go through the technological processes to become a finished.
Main duties:

- analysis on raw materials, intermediates, and production batches throughout the manufacturing process in a timely manner;
- Maintaining organisation of data records, reference standards, procedures within the Quality department.

EDUCATION HISTORY

2007-2013 **Kyiv National University of Food Technologies**
Bachelor's degree in food technology engineering

2013-2014 **Odesa National Academy of Food Technologies**
Master's qualification in engineering
