Viktoriia Sheveria
Front-end developer

PERSONAL PROFILE:

In my previous role as a Chemical Engineer, I developed strong analytical and problem-solving skills. Experienced IT enthusiast with a strong passion for technology and a keen desire to launch a successful career in IT support. Proficient in frontend development and JavaScript, with hands-on experience across multiple projects. Possessing a solid foundation in technical troubleshooting and exemplary communication skills. Currently seeking an entry-level IT position to leverage skills and embark on a rewarding career journey.

CAREER SUMMARY

2022 – 2024 **Relocation to the UK and Language Study**
- During this period, I relocated to the UK, where I focused on improving my English language skills through formal education;
- I worked part-time as a waitress, which enhanced my customer service skills and adaptability;
- In my free time, I pursued self-study in programming, further expanding my technical skill set.

2019 – 2022 **Self-Employer (Freelancer)**
Role: Draughtsperson
Main Duties:
- During my time as a freelancer, I developed and honed various skills, focusing primarily on AutoCAD and space planning;
- I created, updated, and managed documentation in line with client engineering requirements and as-built expectations, ensuring adherence to company templates for drawing creation.

2018-2019 **Employer: Ukrainian Mineral Water Corporation)**
Role:
- Analysis of raw materials, intermediates, and production batches throughout the manufacturing process in a timely manner;
- Maintaining organisation of data records, reference standards, procedures within the Quality department;
- Recognise trends within data records and producing reports regarding these trends;

2014 – 2015 **Employer: Private Enterprise**
Role: Accounting
Main Duties:
- Management of the balance sheet, including reviewing the general ledger and ensuring the integrity of all balance sheets;
- Accounting for receivables and payables;
- Generated financial reports detailing trends and accounting activities;

2007 – 2013 **Employer: Kyiv National University of Food Technologies**
Role: Laboratory Technician
Main duties:
- Perform laboratory tests in order to produce reliable and precise data;
- Following strict methodologies to carry out analyses;
- Prepare specimens and samples.
